

## PRESS RELEASE

### **INGENICO ACQUIRES 100% OF ITS TURKISH DISTRIBUTOR FOR €26 MILLION**

Neuilly-sur-Seine, July 17, 2007

#### **Purchase of Planet puts Ingenico in a position to capitalise on strong potential for growth throughout the middle east.**

Ingenico, a global supplier of transaction and secure payment solutions, today announces that it has agreed to purchase PLANET, the Group's Turkish distributor, for a total consideration of €26 million.

The Turkish market is entering a particularly dynamic phase driven by the migration of installed payment terminals to the EMV standard, product innovation in Turkey's competitive banking industry and the high demand for bespoke payment solutions such as those for the professional sector. With this acquisition, Ingenico intends to further develop its business in this particularly dynamic market.

PLANET's IT and services development platforms will enable the Group to enter the payment applications market and to extend Ingenico's current offering in areas such as the rental of terminals, repair and maintenance as well as the pre-processing of transactions.

PLANET was founded in 1998 and forecasts 2007 revenues of approximately €27 million and an operating profit of approximately €2.7 million.

€20 million of the €26 million transaction consideration was completed in cash with the balancing €6 million paid in shares, representing a capital increase of 271,064 Ingenico shares, bringing the total number of shares in issue to 32,760,008.

Amedeo d'Angelo, Chief Executive Officer of Ingenico said: "This acquisition is yet another step in our efforts to meet the demands of high-growth markets. PLANET will provide us with a commercial platform that will allow us to broaden our activities in those countries bordering Turkey, notably in high-growth markets such as Iran, the Gulf countries, Egypt and Romania."
