Ingenico: particularly strong performance in Q4 2010

2010 results expected above targets

Neuilly sur Seine – January 18, 2011. In the fourth quarter of 2010, Ingenico (Euronext : FR0000125346 - NG) generated a notable strong dynamism in its major markets, particularly thanks to the ramp up of its new Telium product range, resulting into a like-for-like growth of approximately 14%¹ in Q4 2010.

This exceptional commercial performance of the quarter should enable Ingenico to exceed all result targets provided on October 27, 2010. Reported² revenue for the year 2010 should be greater than 900 million euros (as against an announced target greater than 865 million euros) and adjusted operating margin³, as a % of revenue, greater than 13.5% (as against a target greater than 12.7%).

Fourth-quarter revenue and full-year results for 2010 will be released on Monday, February 28, 2011, after the closing of the Euronext Paris stock exchange. The figures will be discussed during a conference call held on the same day at 6 p.m., Paris time.
